

The Intelligencer.

John Hancock was well posted as to his strength in this county. He said for two years before the election, "If I do not receive 400 majority in Ohio county my name is not worth anything in politics."

It is a pity not to be able to record the election of Henry W. Fisher in the second senatorial district. His superb speech at Xenia was not counterbalanced by anything in other parts of the county, and hence he is easily swayed up in West, saying nothing of the voting in Marion.

Miss Judge Tom Harrison has done things in Monongalia, Taylor and Harrison, so far that he has not pulled down the second circuit district. He seems to have run decidedly ahead of his rivals in all these places.

It is a pity not to be able to record the election of Henry W. Fisher in the second senatorial district. His superb speech at Xenia was not counterbalanced by anything in other parts of the county, and hence he is easily swayed up in West, saying nothing of the voting in Marion.

It is a pity not to be able to record the election of Henry W. Fisher in the second senatorial district. His superb speech at Xenia was not counterbalanced by anything in other parts of the county, and hence he is easily swayed up in West, saying nothing of the voting in Marion.

5,074, leaving a majority for Wilson of 1,445, which added to that already obtained in the counties heard from, would give him about 1,701 in the district.

This is as near as the result in the district can be approximated at this time.

The Result in Marion County.

FAIRMONT, October 9, 1878.

The following is the complete vote of Marion county, except for Congressman, Judge of the Second District, and State Senator, the full Republican vote from one precinct not having been received. It will not add more than 75 or 80 to each of the above: For Congress: Burr 1,022, Martin 1,456; Judge of the Second Judicial District: Harrison 1,105, Fleming 1,820; State Senator: Fisher 1,044, Newman 1,420; House of Delegates: Furber, Rep., and Greenbacker, 1,710; Righter, Dem., and Greenbacker, 1,503; Botte was elected by the Republicans; Arnett (late President of the Senate), Dem., 1,368; Conway, Dem., 1,275; Clerk of County Court: Crane, Rep., 1,480; Campbell, Dem., 1,229; Clerk of the Circuit Court: Lott, Rep., 1,276; Smith, Dem., 1,303; Greenbackers Dunn and Harr, respectively 509 and 376.

The defeat of Mr. Lott was secured by misrepresentation and the whisky influence together, he being a member of the council that has been prosecuting the illegal traffic in town recently. Smith only beat him 27 votes, and the Democrats are sick of the result already, many having expressed themselves as very much disappointed at Mr. Lott's unfair defeat. The vote here in town where both are well known, shows their true standing in the county, Lott 294, Smith 115. Doubtless Mr. Lott's absence in Colorado also worked against his vote. However it is a grand triumph for the Republicans on the county ticket, electing three out of four on the ticket.

CITY.

Special to the Intelligencer.

The returns from Lewis county are all in except one precinct and it gave Wilson 72 majority in 1876. Counting it the same this time his majority will stand 320. The whole vote for Congress without that precinct is 915 for Wilson, 657 for Hubbard and 243 for Bassel. The missing precinct casts 180 votes. About 175 of Bassel's votes come from the Republicans.

G. J. Arnold, Independent Democrat, leads Blackwell Jackson, the regular Democratic nominee, 700 votes for the House of Delegates. Wm. G. Harrison is elected Clerk of the Circuit Court. Isaac Wolfert, Rep., has 200 majority for County Clerk.

REPORTER.

OHIO.

CLEVELAND, October 9.—The full returns of Cuyahoga county give Barnes 12,847; Page, 8,648; Ray, 5,659; Townsend, 12,084; Poe, 7,276; Shone, 6,034.
